

Is Your Business OnPoint?

- Maximize Efficiency
- Minimize Mistakes
- Work From Anywhere

What Is OnPoint?

OnPoint is land surveying business management software designed to organize and track your workflow.

Developed by industry leaders, OnPoint reduces administrative costs and mistakes, allowing your business to grow efficiently.

Experts' Brains in a Box!

We teamed up with industry experts, each with decades of experience running multi-million dollar land survey businesses, to help build OnPoint!

Most software focuses on technology and forces you to conform your business process to the software's requirements.

OnPoint takes the opposite approach. We began with a proven business process, and then designed technology to conform to this process.

Life Changing Features!

- Track Nearby Sites
- Track Expensive Equipment
- Client Specific Details AutoFill
- Innovative Project Tracking System
- Simplified Reporting System

Range Search:

One click tells you every site you have done within .5, 1, or 5 miles from the site you are working on. Look at those sites in your database and you probably have all the support, documents, and info you need INHOUSE to go do this job.

Property Information

This also avoids liability caused when one survey contradicts another.

Client Specific Details:

Client details auto populate on every site for the client with notes that keep your team from screwing up.

Things like “Client requires shots of the center line of the access road for 300’ from tower” or “Client requires three sets of color hardcopy prints with their logo on the right side on 11x17” makes a real difference with quality control and prevents error.

Client Information				
Client: Faulkner Cabling Industries	Type:	Primary Contact: Jeremiah Faulkner		
Address: 5656 Citizen Way	City: Oklahoma City	State: Oklahoma	Zip: 73020	
Phone 1: 405-666-6666	Phone 2: 405-666-6666	Phone 3:	Email:	

Notes
Client Specific Notes: They need to have the work order signed before vacating the premises.

Project Number: 19165	
Creation Date: 05-24-2017	

Project Information	
Client: Faulkner Cabling Industries	Contact: Jeremiah Faulkner
Primary Project Associate: Stephen Slick	
Reference: 17107530	Survey Type: Boundary and Improvements

Client Specific Notes: They need to have the work order signed before vacating the premises.
Contact Specific Notes:
Project Specific Notes: Property has major drainage system behind. Although not within boundary shoot those improvements.

OnPoint can also track the specific requirements of individual contacts within a given client company. This way you never have to worry about confusion due to client inconsistencies!

Project Tracking System:

Most software tracks by a single “status” which can lead to incomplete information.

OnPoint tracks every task, displays what still needs to be done, who is responsible for doing it, and when tasks were completed.

This is particularly important because sometimes work is completed out of order, or tasks need to be redone due to mistakes or changing client requirements.

Terms Quoted:
Credit Card on completion.

Authorization To Proceed Date: 2017-05-24 **ATP Form:** Email from Jason Margrove 5-24-17

Timeline Quoted: 10 days **Final Due:** 2017-06-03

Sub Contractors Required:
None.

Main

Instantly create a summary of assigned tasks for use in efficient scheduling.

Earning Your Business:

- Reliable
- Redundant
- Hassle Free

THIS MAP IS REALLY COMING TOGETHER.
WE DID SOME GOOD WORK TODAY.

WHAT DO YOU SUPPOSE
THAT IS UP THERE?

OH, THAT'S
ONE OF THOSE
SPACE SHIP THINGS.

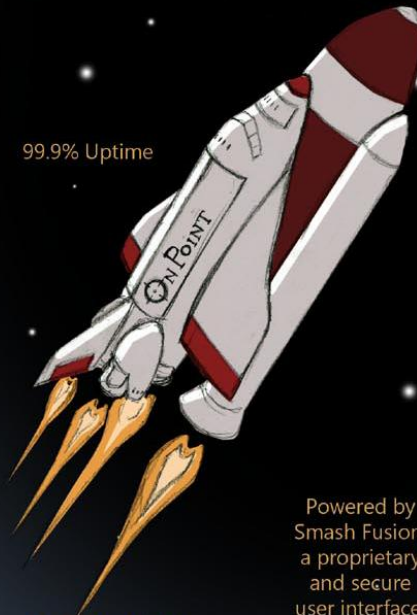

HOW DO YOU SUPPOSE
WE GET THERE?

THAT'S A WHOLE
OTHER LEVEL
OF FRONTIER...

Why On Point?

Modules designed
to save time!

99.9% Uptime

Automatic Nightly
Backup!

Powered by
Smash Fusion,
a proprietary
and secure
user interface.

Accessible anywhere!
(Even from space!)

And if you have any
problems, American-
based support is just a
phone call away!
